

University of Washington School of Medicine Computer List

Last Updated: April 26th, 2019

Version: 2.0

This is a list of Windows PC laptops that have been vetted by the medSTAT (Medical Student Technology Advisory Team) to meet the laptop requirements as given by the UW School of Medicine Dean's Office. This list is not exhaustive and is only intended to assist in shopping for computers that meet the system and encryption requirements. All listed computers meet requirements based on their base model (other than operating system upgrade to Microsoft Windows 10 Professional) and can be upgraded to meet recommendations. **Note: All Apple MacBook laptops meet the minimum requirements.**

Color Legend:

- Yellow Box: Computer Meets Requirements (4GB Memory or 120 GB Storage)
- Green Box: Computer Meets Recommendations (8 GB Memory or 256 GB Storage)
