

UW Medicine

UW SCHOOL
OF MEDICINE

Dear UWSOM medical students,

In response to the COVID-19 pandemic situation and new challenges in medical training, AMBOSS, a question bank and resource library, is providing free access to UW School of Medicine students and faculty until July 1, 2020. The details to sign up for this free trial are below:

Click on this link to begin: (<https://www.amboss.com/us/covid-19-campus-uw>)

1. Log in to an existing account or create a new account if you don't have one yet (can be any email address).
2. Once your account is set up, go to your profile settings.
3. Extend your access by joining a campus trial and choosing University of Washington School of Medicine from the dropdown.
4. Follow the campus trial activation instructions by providing an approved email address and following the confirmation steps.

Please note:

- This is a one-time offer and does not require you to pay for a subscription once the 90 days is complete.
- This free trial does not mean the UWSOM will be providing further access to AMBOSS or a class wide subscription to AMBOSS after this free trial ends on July 1, 2020.
- AMBOSS does not have the ability to provide refunds to those who already have a subscription purchased at this time.

Thank you! I think this is an excellent opportunity provided for you all to include more questions as you study for foundations, Step 1, or Step 2 CK! Please let me know if you have any questions or feedback about using AMBOSS.

-Yvonne
