UW SCHOOL
OF MEDICINE

Dear Students:

Attached are the slides from a webinar, Health Insurance 101, held March 31, 2020 with representatives from the Washington Health Benefit Exchange for rising third-year students who are preparing for their clinical phase of training. The webinar recording is at <https://mediasite.hs.washington.edu/Mediasite/Play/0623a4eb6d214b3eb3024dc51919740f1d>

We are in a special open enrollment period for sign up for the Washington Exchange as a result of Covid-19. **The open enrollment ends on May 8.** (If you are signing up for Apple Health, the Washington Medicaid option, you can sign up anytime.) Slide 7 provides information about the current open enrollment; slide 28 provides contacts/navigators who can help you sign up.

I urge each of you to watch the recording and/or review the slides if at all possible and to utilize the open enrollment period (again, open until April 8 in Washington) if you aren't currently covered and are considering private insurance.

Dr. Maestas
