Dr. Brice

# REMINDERS

- Counseling services are available to you and a great way to manage the stressors of medical school
- DRS Accommodations are available:
  - Meghan Matthews, Senior Access Coordinator – [meghanm7@uw.edu](mailto:meghanm7@uw.edu)
- You should be tracking your Thread grades as you move through the curriculum
- Tutoring services are available: Group (2x weekly); Individual (1x weekly)

Dr. Tyler

## ACADEMIC SUPPORT

# Tutoring Services

### Group Tutoring

There is great benefit in group learning and finding support from your fellow classmates! Group tutoring is now offered several days a week and led by senior students. We hope you take advantage of this opportunity and perhaps even find a new study partner as well!

Block specific, Step 1 and Step 2 group tutoring is available to aid students in advancing in their courses or preparing to sit for their USMLE Step 1 or Step 2 test day. Tutors can help with understanding course material and even test taking tips.

If group tutoring is not working out for you, talk to your learning specialist to see what is available for individual tutoring on an as needed basis.

### Individual Tutoring

Limited individual tutoring sessions are available for help with coursework, shelf exams, threads and course remediation. Individual tutoring is great for students who need additional support apart from group tutoring and workshops.
