

EDUCATIONAL QUALITY IMPROVEMENT STRATEGIC PLANNING COMMITTEE

UWSOM Medical Student Education Program Strategic Plan

Mission Statement

The University of Washington School of Medicine Medical Student Education Program will improve the health of the public by educating inquisitive, compassionate, physicians who serve the evolving healthcare needs of the diverse individuals while striving for healthcare justice and equity.

Vision Statement

Empowering students to become the physicians they aspire to be through innovative regional medical education.

Values

The UWSOM MSEP Values will be integrated within our strategic priorities, outcomes, and decision-making to guide our path forward.

- Collaboration
- Excellence
- Justice, Equity, Diversity & Inclusion
- Respect
- Stewardship
- Student Engagement & Leadership

Strategic Priorities

In order to achieve our Mission and Vision and to serve our students well, the MSEP will focus on the following Strategic Priorities over the next 5 years. These will be key drivers that drive us towards our Mission and Vision in an outcomes-based manner.

- Optimize the Medical Student Education Program governance structure and align resources to meet regional needs.
- Foster collaborative and innovative regional medical education that recognizes the attributes of regional sites.
- Become an inclusive and antiracist medical student education program that dismantles all types of oppression in the learning environment.
- Instill a continuous quality improvement culture throughout UWSOM's medical student education program.
- Support faculty and staff education and lifelong learning across the region to optimize teaching outcomes as well as fostering recruitment, retention, and recognition.
