

MedLoans® Organizer and Calculator: A Loan Repayment Tool

The MedLoans® Organizer and Calculator (MLOC) helps medical students and residents manage their student loan debt. All enrolled medical school students and medical school graduates have free premium access to MLOC.

MLOC can do the following:

- Provide a secure place to enter, upload, track, and store loan information.
- Demonstrate various repayment scenarios, including loan forgiveness projections, based on a borrower's loan portfolio, residency plans, household size, and income.
- Equip borrowers with a clear understanding of their total student loan debt, length of repayment, and total repayment cost.

Use your AAMC username and password to log in to the
