

## Checklist for MS2 Remediation

- Register for Winter Quarter courses:
  - MEDSCI 582 A – Consolidation
  - MEDSCI 583 A – Transition to Clerkships
  - The independent study course(s) needed for your remediation
- By January 10**, schedule a meeting with the Block/Thread director to:
  - Ask them to share their expectations, remediation content, and designated faculty contact.
  - Ask them to share the remediation exam format.
  - Develop a study plan.
- Schedule a meeting with a tutor at least once a week to review material.
- By the end of the second week of Winter Quarter**, email [somtests@uw.edu](mailto:somtests@uw.edu) and the Block/Thread Director the date of your remediation exam. Note: Remediation exams will only be given on Fridays.
  - Reminder: Remediation of unsatisfactory Foundations Phase required coursework must be completed prior to taking USMLE Step 1. If you do not sit for Step 1 by March 8, your Summer A and B clinical rotations will be dropped to provide additional dedicated study time.
- Schedule a meeting with a learning specialist at least once to review study strategies.
- Schedule a mid-quarter check-in with designated faculty, if needed.
- By the last day of UW Winter Quarter**, complete your remediation exam.
